Hi All- Please find the latest of the draft of the FRN incorporating OCSPP IO (DAAs/AA) comments in the below Sharepoint link. The handwritten comments we received Friday PM are attached. Peter, for the time being I have commented that RCIS has suggested alternative text to the summary section (also attached).

Did you want to work directly with the OCSPP IO on that or add to the working draft, linked to below? Steve, we will need your counsel: **Ex. 5 Attorney Client (AC)** I am also copying Chris and Bethany for their awareness.

Thanks Steve!

RICS agrees; we have for many years presented SNURs as information/notification rules with minimal regulatory impacts rather than actions to prohibit or limit the manufacture/import, processing, and use of chemical substances. Although RICS is has no worry about providing an explanation of applicable section 5 requirements for uses determined to be "significant new uses," the SNUR itself does not impose those requirements (it only establishes the significant new uses). **Ex. 5 Deliberative Process (DP)**

I'm also interested in **Ex. 5 Attorney Client (AC)** Otherwise, I didn't see anything else that'd necessarily be tricky to resolve.

Hi Susanna - the comments on page 1 and 18 are a bit cutoff so can they rescan/send? And so I understand things, these are comments just from Charlotte and the rest of OCSP/IO comments are coming Monday?

Erik

Hello,

Attached are handwritten comments from the AA's office. We were just given these this afternoon and I think there are some substantive comments here. We will let the OPPT IO of the timing of this and that you all will do what you can to get these done, with the understanding that it is 5 on Friday afternoon.

Thanks,  
Susanna
